

GOLDEN PANDA ROADSHOW

Standard Operating Procedure Handout

1. General Rules (Everyone)

- Attitude: Be AGGRESSIVE in approaching and engaging customers (don't wait for them to come to you).
- Punctuality: Arrive at least 30 minutes before your working hour starts.
- Attire: Plain T-shirt (black or white) + long pants + covered shoes.
- Check-in & Check-out:
 - Register as promoter & punch the attendance card (if applicable)
 - or Take a picture beside punch clock once arrived & before leaving.
- Setup & dismantle: Everyone helps set up the booth before opening and dismantle it after closing.
- Sales target: THE MORE, THE BETTER — always push for the next sale or the next sample given out.

2. Role-by-Role SOP

Mascot (11am - 1pm)

- Prepare balloons before the shift starts.
- Put on the Panda costume fully and be ready at the entrance/high-traffic point.
- Take photos & interact with customers to draw a crowd.
- Actively attract foot traffic: move, wave, engage — don't just stand still!
- Safety first since visibility is limited inside the costume.

Mascot Assistant (11am - 1pm)

- Prepare balloons and key in the amount of flyers & coupon before event start using GP APP.
- Help the Mascot get dressed and undressed safely.
- Proactively approach passers-by & let them know about our event by handing them flyers with voucher.
- If a child approaches the booth, use balloons to grab their attention & let them play with Mascot.
- Direct the guest to the Promoter's booth to claim their free gift.
- Record the closing stock of flyers & coupons collected using GP APP.

Promoter (10am - 6pm)

- Set up the booth nicely & neatly arrange all SKUs.
- Prepare samples/free gifts & count opening stock for each giveaways & SKUs before opening.
- Approach customers aggressively & explain the product using the guidelines below.
- Guide customers from interest -> product/promotion explanation -> sample/gift -> close the sale.
- Track and top up stock of samples, gifts and flyers throughout the shift.
- Record the sales of all SKUs & the amount of free gifts given out in GP APP.

Promoter: Opening Script for Passers-by

The moment a customer walks near the booth, step toward them, smile, make eye contact, and explain the product, key selling points, and today's promotion within 30 seconds. Don't wait for them to speak first!

Full Pitch (~30 seconds)

Hi! This is Golden Panda's fully plant-based dishwash. It's suitable for user with sensitive skin & dry skin as this product is free of harsh chemicals like SLS & paraben. So, it can moisturize your hands & protect your skin as well. Also, it is ultra-concentrated too, just a little can wash 4-5 plates.

We have 3 scents — Hokkaido Melon, Lemongrass Ginger, and Bidara (let customers smell).

And today, we've got [current promotion] — plus a free gift just for trying it, no purchase needed!

Here's your free gift, thank you!

Quick Version (~15 seconds, for busy customers)

Hi! This is Golden Panda's plant-based dishwash. Suitable for sensitive or dry skin, ultra-concentrated, and gives protection on hands. Today we have [current promotion] plus a free gift, no purchase needed. You can try our product first. Here's your free gift, thank you!

Add-on selling points:

- It is made from all natural ingredients of plants, non-toxic at all.
- We are using Easy Rinse Technology, meaning it creates less residue, allow dishes to rinse off faster & can save more water.
- It is very foamy unlike other plant-based dishwash in the market so can clean oil stains very well.
- It is gentle & safe for whole family even babies, you can use it to wash baby bottles and cutlery.

Mascot Assistant: Quick Opening Line

When approaching passers-by, keep it short: introduce today's event and let them know they can claim a free gift from Golden Panda — no purchase needed.

Scenario 1: General passer-by

"Hi! We're from Golden Panda. This coupon is for you to claim a free gift from us, no purchase needed! Just take this flyer with the voucher and head over to our booth to collect your free Golden Panda dishwash gift set."

Scenario 2: Family with kids

To kids:

Hello! Didi / Meimei do you want balloons? You can come to take a photo with Panda or you can play with him.

To parents:

Here's a free gift waiting for you too, no purchase needed! Just take this flyer and head over to our booth to claim your free Golden Panda gift set.

Milestone	20,000 units sold within 3 months of launch across Malaysia

4. Customer Q&A — 3 Levels

LEVEL 1 — Basic (Most Frequently Asked)

Q: What is this product?

A: It's Golden Panda Dishwashing Liquid — you can use it to clean your dishes & wash hands. It is gentle and safe for sensitive skin user.

Q: Is it safe for hands / sensitive skin?

A: Yes, because there are no harsh chemicals inside our product.

Q: What scents are available?

A: Three natural scents: Hokkaido Melon, Lemongrass Ginger, and Daun & Bunga Bidara.

Q: What sizes/packaging do you have?

A: Two options: a 1L pump bottle, or a 480ml refill pack for topping up.

Q: How do I use it?

A: Apply a small amount onto a sponge or directly onto dishes, wash as normal, then rinse. The Easy Rinse Technology allows a faster rinse even though it is ultra concentrated.

Q: Where can I buy it after today?

A: Tell customer the location of our homeshelf/standee or tell them to search our online store: Golden Panda (available in both Shopee & Lazada).

Q: Is there a free sample or gift?

A: Yes, customers who take a flyer with coupon can claim a free sample/free gift at the promoter booth (while stocks last).

LEVEL 2 — Intermediate

Q: What makes this different from a regular dishwashing liquid?

A: It combines a plant-based formula with Ultra Concentrated cleaning power and Easy Rinse Technology, so you use less product, rinse faster, and reduce water usage compared to typical detergents.

Q: Is it really biodegradable / eco-friendly?

A: Yes, it's made from plant-based, biodegradable ingredients and is cruelty-free, with no animal testing and no animal-derived ingredients in the formula.

Q: How concentrated is it — do I need less than usual?

A: It's Ultra Concentrated, so a smaller amount goes further compared to standard dishwashing liquids — you generally need less per wash.

Q: Is it suitable for baby bottles or baby items?

A: It's positioned as safe for sensitive skin and safe for the whole family; for baby items specifically.

(Advise the customer to check the product label or rinse thoroughly as they normally would)

Q: Why should I trust this brand — is it popular?

A: Golden Panda has sold over 20,000 units within 3 months of launching across Malaysia, and from our customer feedback, their allergy symptoms like red rashes, itchy skin & peel off skin reduced effectively after using our products.

Q: Do the 3 scents perform differently in cleaning power?

A: All three scents share the same core plant-based, ultra-concentrated cleaning formula — the difference is only in fragrance, not cleaning performance.

Q: Can I use to wash hands?

A: Yes, definitely can. Since all the ingredients are fully plant-based without harsh chemicals, the liquid acts like a strong cleaning agent with moisturizer that avoid hands to feel dry after using.

Q: Can I use to wash vege or fruits?

A: We would not recommend it, but just to share, we do have customers who use our bio dishwash to wash their fruits like apples and rinse thoroughly before eating. They say it's functioning well. Yet, we do not recommend this even though our products are safe.

LEVEL 3 — Advanced

Q: What ingredients are in the formula, and are there any harsh chemicals?

A: Advice customers to look at the full ingredient list (INCI) printed on the bottle: Aqua, Biodegradable Anionic Surfactant, Palm Kernelamide, Glycerine, Sodium Laureth Sulfate, Sodium Benzoate, Parfum. It's formulated without harsh chemicals, which helps prevent dry or irritated hands and avoids overpowering chemical smells, and it has a mild pH that stays gentle on skin even with daily use.

Q: How does this compare to competitor eco-friendly detergents on the market?

A: Focus on Golden Panda's own strengths — plant-based formula, ultra concentration, easy rinse, sensitive-skin safety, and fast sales traction (20,000 units in 3 months). Avoid making direct negative claims about named competitor products; keep the comparison to what Golden Panda offers.

Thank you, everyone, for helping out! Let's give it our best.
